Hobbies

- Programming
- Football

Profile

Detail-oriented Computer Science Student with 9.45 CGPA and a strong foundation in programming languages including Java, C, C++ and Python complemented by a thorough understanding of data structures, algorithms, and software development methodologies.

Motivated and analytical professional equipped with knowledge of operating systems and database management, eager to contribute to innovative technology projects and deliver optimized computational solutions.

Education

2nd PUC

Mar 2021 - May 2023

MES Kishora Kendra PU College, Bangalore

- Mastered core subjects such as Physics, Chemistry, and Mathematics essential for science stream.

B.E. in Computer Science

Present

Bangalore Institute of Technology, Bangalore

- Gained in-depth knowledge of programming languages including Java, C, and Python, focusing on software development and problem-solving techniques.
- Acquired understanding of operating systems and database management systems essential for modern computing.
- Studied data structures and algorithms to design efficient and optimized software solutions.

Certificates

C

Sep 2023

- Certified C Programming Professional demonstrating proficiency in core C language syntax and semantics.

C++

Sep 2023

- Completed a comprehensive C++ programming course covering syntax, object-oriented programming, and standard template library.

Python for Beginners

Mar 2024

- Completed foundational modules covering Python syntax, data types, and control structures.
- Developed practical skills through hands-on exercises involving functions, loops, and conditional statements.

Achievements

- Two times National Hackathon Winners.
- Demonstrated exceptional coding, teamwork, and problem-solving skills resulting in back-to-back wins at competitive national hackathon events.
